

Plast-O-Matic Pressure Regulators 1/2" – 3" CRITICAL MAINTENANCE ADDENDUM

MANDATORY PRE-INSTALLATION SERVICE

All Plast-O-Matic pressure regulators must have the external connection screws or nuts retorqued to the required torque setting before putting unit into operation.

1. Remove blue plastic screw cover caps if unit is equipped (do not discard).
2. Retorque screws or nuts (depending on the particular unit) to the torque setting outlined below. Retorque all external connection screws and nuts in opposing pairs.
3. Replace the blue screw cover caps on applicable units.
